

Join Conservation Corps! Positions Available for 2021 Near Rochester and Mankato

Serve outdoors with conservation professionals

Make a difference for the environment and your community

Earn money for school and student loans

Gain field skills and leadership experience

AmeriCorps Field Crews Members receive hands-on training in natural resources management skills and apply those skills while completing habitat restoration and conservation projects throughout the Midwest. Gain professional experience and connections working alongside conservation professionals.

Typical projects include prescribed burning, prairie restoration, tree planting, trail building and maintenance, habitat management and improvement, and spike camping trips. Occasional disaster response opportunities may arise.

Members earn a monthly stipend and receive an education award upon the successful completion of their term.
