

NOW HIRING: CONSERVATION FRONTLINERS

ARE YOU LOOKING TO BUILD YOUR CAREER AND SAVE MONEY DURING THE PANDEMIC?

Observers are considered essential workers because they collect critical data for National Marine Fisheries Service & NOAA Fisheries. Observers live and work aboard commercial fishing vessels operating in the Bering Sea and the North Pacific Ocean and gather data essential to the sustainable management of Alaska's fisheries.

COMPENSATION: \$4263/month to begin with, plus room, board, and travel to and from job site.

QUALIFICATIONS: Minimum of a Bachelor's Degree in fisheries biology, marine biology, general biology, zoology, or a related natural science. Additionally, applicants must have at least one math class, one statistics class, and a course that required dichotomous key use. Must be a US Citizen and vaccinated.
