

Nursing

Professional nurses provide direct care to individuals and work with others in a variety of settings to address the health needs of individuals, families, and communities. The practice of nursing aims to help people of all ages experience optimal health. Respect for human dignity and a commitment to caring are essential to nursing practice. Expectations of the baccalaureate Nursing graduate include professional growth and scholarly approaches to practice. The profession of nursing provides opportunities for graduates to assume many roles in a variety of clinical areas. A baccalaureate degree in Nursing also provides a foundation for graduate study and further specialization.

The baccalaureate degree program in nursing at Bemidji State University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791. The program has two tracks, the RN to Baccalaureate Track and the 4-Year Track.

The **RN to Baccalaureate Track** serves registered nurses who live and work in various geographical areas. Courses are offered in block schedules, and some components are offered on the Internet and some on-campus. Students may enroll in liberal education courses and selected Nursing courses prior to being admitted to the Nursing major.

The **Pre-licensure Track** serves students who are entering Bemidji State University as freshmen and are seeking a baccalaureate nursing education that will prepare them to take the NCLEX RN exam after graduation.

Programs

- Nursing, B.S. (Pre-Licensure Track) *major*
- Nursing, B.S. (RN To Baccalaureate Track) *major*

Nursing, B.S. *major* Pre-Licensure Track

Required Credits: 86
Required GPA: 2.25

III REQUIRED COURSES

A. Non-Nursing Courses

Applicants must have completed at least 30 semester credits, including the designated required non-nursing courses listed as follows, for admission consideration.

Complete the following courses:

- BIOL 1111 Anatomy and Physiology for Allied Health I (4 credits)
- BIOL 1112 Anatomy and Physiology for Allied Health II (4 credits)
- BIOL 2750 Medical Microbiology (3 credits)
- CHEM 1111 General Chemistry I (4 credits)
- PSY 1100 Introductory Psychology (4 credits)
- PSY 3237 Lifespan Development (4 credits)

B. Nursing Courses

Complete the following courses:

- NRSNG 2000 Introduction to Professional Nursing (3 credits)

- NRSNG 2203 Introduction to Clinical Practice (4 credits)
- NRSNG 2204 Health Assessment (3 credits)
- NRSNG 2207 Nursing Pharmacology (3 credits)
- NRSNG 3000 Elements of Scholarly Practice (2 credits)
- NRSNG 3007 Acute Care Practicum I (4 credits)
- NRSNG 3008 Acute Care Practicum II (4 credits)
- NRSNG 3011 Nursing Care of Individuals I (4 credits)
- NRSNG 3012 Nursing Care of Individuals II (4 credits)
- NRSNG 3120 Transcultural Nursing (2 credits)
- NRSNG 3201 The Childbearing Family (2 credits)
- NRSNG 3202 Child/Adolescent Health (4 credits)
- NRSNG 4001 Mental Health Nursing (4 credits)
- NRSNG 4003 Rural Populations Practicum (5 credits)
- NRSNG 4010 Nursing Care with Complex Needs (2 credits)
- NRSNG 4100 Nursing Research (3 credits)
- NRSNG 4110 Community Health Nursing (3 credits)
- NRSNG 4201 Role Integration Practicum (4 credits)
- NRSNG 4250 Leadership in Nursing (3 credits)

Suggested Semester Schedule for | NURSING (Pre-Licensure) B.S. *major*

Freshman Fall

- BIOL 1111 Anatomy and Physiology for Allied Health I (4 credits)
- ENGL 1151 Composition (3 credits)
- PSY 1100 Introductory Psychology (4 credits)
- MATH Liberal Education requirement

- UNIV 1190 First Year Experience Seminar (1 credit)

Freshman Spring

- BIOL 1112 Anatomy and Physiology for Allied Health II (4 credits)
- ENGL 2152 Argument and Exposition (3 credits)
(or other Liberal Education requirement)
- CHEM 1111 General Chemistry I (4 credits)
- CHEM 1171 General Chemistry I Lab (0 credit)
- PSY 3237 Lifespan Development (4 credits)
- MATH Liberal Education requirement
- UNIV 1190 First Year Experience Seminar (1 credit)

Complete sometime before start of sophomore year:

- Certified Nursing Assistant course
- American Heart Association HeartCode BLS CPR certification
- ATI TEAS Assessment Exam

Sophomore Fall

- NRSNG 2000 Introduction to Professional Nursing (3 credits)
- xxxx2925 (any People of the Environment course)
- Liberal Education requirements (6-9 credits)
(the above two courses may be taken as a freshman)

Sophomore Spring

- BIOL 2750 Medical Microbiology (3 credits)
- NRSNG 2203 Introduction to Clinical Practice (4 credits)
- NRSNG 2204 Health Assessment (3 credits)
- NRSNG 2207 Nursing Pharmacology (3 credits)
- Liberal Education requirements (3 credits)

Junior Fall

- NRSNG 3000 Elements of Scholarly Practice (2 credits)
- NRSNG 3007 Acute Care Practicum I (4 credits)
- NRSNG 3011 Nursing Care of Individuals I (4 credits)
- NRSNG 3120 Transcultural Nursing (2 credits)

Junior Spring

- NRSNG 3008 Acute Care Practicum II (4 credits)
- NRSNG 3012 Nursing Care of Individuals II (4 credits)
- NRSNG 3201 The Childbearing Family (2 credits)
- NRSNG 4001 Mental Health Nursing (4 credits)
- Elective or Liberal Education credits as needed

Senior Fall

- NRSNG 3202 Child/Adolescent Health (4 credits)
- NRSNG 4003 Rural Populations Practicum (5 credits)
- NRSNG 4110 Community Health Nursing (3 credits)
- Elective or Liberal Education credits as needed

Senior Spring

- NRSNG 4010 Nursing Care with Complex Needs (2 credits)
- NRSNG 4100 Nursing Research (3 credits)
- NRSNG 4201 Role Integration Practicum (4 credits)
- NRSNG 4250 Leadership in Nursing (3 credits)

RN To Baccalaureate Track

Required Credits: 32

Required GPA: 2.25

I ADMISSION TO THE MAJOR

- Be fully admitted to Bemidji State University
- Achieved a minimum cumulative GPA of 2.5 in previous RN program
- Submit a Department of Nursing Application
- Applicants to the program must have earned an associate degree or diploma degree as a registered nurse or be licensed RNs by the end of the first semester in the BSU RN-BS program (must have RN License prior to starting NRSNG 4116/NRSNG 4120). If a license is not acquired within the first 16 weeks of the program, the student will no longer be eligible to progress in RN-BS nursing courses.
- Be licensed to practice as a registered nurse or be a graduate with license pending in Minnesota, Wisconsin or North Dakota. Full admission to the program requires unencumbered licensure. See below, unencumbered RN license information.
- Have internet access suitable for delivery of online courses, practice experiences and peer collaboration.
- Students must reside in Minnesota, North Dakota, or Wisconsin and a student must have an unencumbered RN license from the state in which they reside (must have RN License prior to starting NRSNG 4116/NRSNG 4120). If a student has an encumbered RN license, they are not eligible for admittance to the program. If a student changes state of residency while in the program, they may not be able to continue in the program unless they move to North Dakota, Wisconsin, or Minnesota. If a student changes states of residency, they must notify the Department of Nursing.

II PROGRESSION

All individual nursing courses applied to the upper division major requirements must reflect a letter grade of C or better.

III REQUIRED NURSING COURSES

Complete the following courses:

- NRSNG 3100 Concepts of Nursing and Health Care (3 credits)
- NRSNG 3140 Advanced Health Assessment (3 credits)
- NRSNG 3150 Integrative and Cultural Nursing (3 credits)
or NRSNG 3400 American Indian Health Issues & Nursing (3 credits)
- NRSNG 3240 Information Management and Collaborative Communication (3 credits)
- NRSNG 3300 Health Care Policy, Finance, and Regulatory Environments (3 credits)
- NRSNG 4116 Family and Population Health Nursing (4 credits)
- NRSNG 4120 Family and Population Health Practicum (4 credits)
- NRSNG 4210 Nursing Leadership and Management RN-BS (3 credits)
- NRSNG 4260 Evidence, Practice, and Research (4 credits)

Complete one of the following courses for two credits:

- NRSNG 3150 Integrative and Cultural Nursing (3 credits)
- NRSNG 3200 Health Education in Nursing Practice (3 credits)
- NRSNG 3400 American Indian Health Issues & Nursing (3 credits)
- NRSNG 3410 APA Format, Nursing (2 credits)
- NRSNG 3430 Health Promotion (2 credits)
- NRSNG 3440 Palliative Care Nursing (3 credits)
- NRSNG 3450 Holistic Nursing (2 credits)
- NRSNG 3460 Child Abuse and Nursing Forensics (3 credits)
- NRSNG 3920 Directed Group Study (1-4 credits)

Nursing, B.S. major

Suggested part-time Semester Schedule | Nursing, B.S.

Fall Semester

- NRS 3100 Concepts of Nursing and Health Care (3 credits)
- NRS 3150 Integrative and Cultural Nursing (3 credits)
or NRS 3400

Spring Semester

- NRS 3140 Advanced Health Assessment (3 credits)
- NRS 3240 Information Management and Collaborative Communication (3 credits)

Summer Semester

- NRS 3300 Health Care Policy, Finance, and Regulatory Environments (3 credits)

Complete one of the following courses for 2 credits

- NRS 3920 Directed Group Study (1-4 credits)
- NRS 3200 Health Education in Nursing Practice (3 credits)
- NRS 3400 American Indian Health Issues & Nursing (3 credits)
(if not taken in lieu of NRS 3150 Integrative and Cultural Nursing)
- NRS 3410 APA Format, Nursing (2 credits)
- NRS 3430 Health Promotion (2 credits)
- NRS 3440 Palliative Care Nursing (3 credits)
- NRS 3450 Holistic Nursing (2 credits)
- NRS 3460 Child Abuse and Nursing Forensics (3 credits)

Fall Semester

- NRS 4116 Family and Population Health Nursing (4 credits)
- NRS 4120 Family and Population Health Practicum (4 credits)

Spring Semester

- NRS 4210 Nursing Leadership and Management RN-BS (3 credits)
- NRS 4260 Evidence, Practice, and Research (4 credits)

A full-time program includes one Fall semester (all Fall courses as above) and one Spring semester (all Spring courses as above), followed by Summer courses as above

Nursing Courses

NRS 2000 Introduction to Professional Nursing (3 credits)

Introduces concepts related to the discipline of nursing, health and health care, and the social context of the profession, including attention to rural health care. Addresses psychosocial and spiritual dimensions of nursing care, introducing therapeutic communication and socialization into nursing practice.

NRS 2203 Introduction to Clinical Practice (4 credits)

The nursing process as a framework for providing a holistic approach to nursing care. Focuses on knowledge and practice related to basic needs and selected interventions, including medication administration. Learning environments include classroom and laboratory settings. Prerequisites: 4 year track enrollee, NRS 2000.

NRS 2204 Health Assessment (3 credits)

Introduces beginning theory and practice for systematic data collection about the health status of individuals, including the identification of characteristics common to particular age groups. Guides the student in distinguishing between normal and abnormal profiles and potential health concerns. Learning environments include classroom and laboratory settings. Prerequisites: Admission to the program and NRS 2000.

NRS 2207 Nursing Pharmacology (3 credits)

This course is designed to develop theoretical knowledge of pharmacotherapeutics for nursing practice. The focus of major drug classifications and specific medicinal agents will be discussed in relation to pharmacodynamics, pharmacokinetics, therapeutic uses, adverse reactions, and precautions. Prerequisites: enrollment in 4 year nursing program, NRS 2000.

NRS 3000 Elements of Scholarly Practice (2 credits)

Examines forms of knowledge, the interrelationship between knowledge and practice, and the development of critical reflective thought. Introduces selected nursing theories, evidence-based practice, and an exploration of implications for nursing practice approaches. Includes study of ingredients expected in formal paper presentations. Prerequisites: prelicensure track enrollee only.

NRS 3003 Practicum: Adult/Gerian (4 credits)

The nursing process, incorporating a holistic view, serves as the framework for the provision of nursing care to adults and gerians. Nursing practice roles and abilities relate to promotion, attainment, and preservation of health, amelioration of suffering, and supporting a peaceful death. Learning experiences include laboratory and a variety of rural health care environments. Prerequisite: 4-year track enrollee, NRS 2000, NRS 2203, NRS 2204. Corequisite: NRS 3001. Pre- or corequisite NRS 3120.

NRS 3007 Acute Care Practicum I (4 credits)

The nursing process, incorporating a holistic view, serves as the framework for the provision of nursing care across the lifespan. Learning experiences include laboratory and a variety of rural health care environments. Clinical rotations may include medical surgical, operating room, intensive care units, telemetry, cardiac catheter laboratory, emergency room, or operating room, or others as assigned. Prerequisite(s): Pre-licensure track enrollee, NRS 2203, NRS 2204, NRS 2207; Co-requisite NRS 3010 or NRS 3012.

NRS 3008 Acute Care Practicum II (4 credits)

The nursing process, incorporating a holistic view, serves as the framework for the provision of nursing care across the lifespan. Learning experiences include laboratory and a variety of rural health care environments. Clinical rotations may include labor & delivery, postpartum & nursery, pediatrics, obstetrics & gynecology, wound or ostomy, acute rehab, or others as assigned. Prerequisite(s): Pre-licensure track enrollee, NRS 2203, NRS 2204, NRS 2207; Co-requisite NRS 3010 or NRS 3020.

NRS 3011 Nursing Care of Individuals I (4 credits)

Focuses on common physiological health and illness concerns experienced by adults and older adults. Emphasis will be on implementing evidence-based nursing care that reflects an understanding of human growth and development, pathophysiology, pharmacology, medical management, and nursing management for adults and older adults. Prerequisites: Pre-licensure track enrollee, NRS 2203, NRS 2204, NRS 2207.

NRS 3012 Nursing Care of Individuals II (4 credits)

Focuses on common physiological health and illness concerns experienced by adults and older adults. Emphasis will be on implementing evidence-based nursing care that reflects an understanding of human growth and development, pathophysiology, pharmacology, medical management, and nursing management for adults and older adults. Prerequisite(s): Pre-licensure track enrollee, NRS 3011, NRS 3000, NRS 3120; Co-requisite(s): NRS 3007.

NRSG 3100 Concepts of Nursing and Health Care (3 credits)

Introduces concepts emphasized in the program. Explores the nature of the discipline within professional and social contexts. Concepts of health are studied in relation to professional practice roles. Examines philosophies, theories, and frameworks for nursing practice. Students also address values clarification and ethical decision making. Prerequisite: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester.

NRSG 3120 Transcultural Nursing (2 credits)

Health beliefs and practices of clients from diverse backgrounds, including the concept of rural culture and cultural barriers to quality health care. Theoretical frameworks for performing a cultural assessment and for planning and implementing culturally appropriate nursing care. Provides opportunity for students to reflect on culture in relation to oneself and nursing practice roles. Prerequisite: Admitted to major.

NRSG 3140 Advanced Health Assessment (3 credits)

Integrates understanding of altered physiologic states and principles of psychosocial and holistic nursing into a comprehensive approach to advanced nursing assessment for individuals across the lifespan. Guides the student in collecting and interpreting history information, physical information, and results of diagnostic studies. Analysis of information results in nursing diagnoses. Emphasis on advanced assessment process to evaluate response to nursing care. Prerequisite: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100.

NRSG 3150 Integrative and Cultural Nursing (3 credits)

Examines the health beliefs and practices of clients from diverse backgrounds, including the concept of rural culture and cultural barriers to quality health care. Theoretical frameworks for performing a cultural assessment and for planning and implementing culturally appropriate nursing care. Includes opportunities for students to reflect on culture in relation to oneself and nursing practice roles. Also explores integrative medicine as a component of cultural practice, values, and beliefs in response to a growing rate of patient demand for wellness-promoting integrative therapies. Prerequisites: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100

NRSG 3200 Health Education in Nursing Practice (3 credits)

This course examines the role of health education in nursing practice and healthcare. Concepts, principles, and theories related to teaching-learning processes are addressed. The development, delivery, and evaluation of health education are studied in relation to healthcare and professional nursing roles. Group dynamics are also examined. Prerequisite: Current unencumbered RN license and admitted to the major.

NRSG 3201 The Childbearing Family (2 credits)

Introduces family assessment as a framework for nursing practice. Incorporates a holistic approach in the nursing care of families and newborns during an uncomplicated perinatal experience. Prerequisites: NRSG 2203, 2204, 2207, and pre/corequisite NRSG 3008.

NRSG 3202 Child/Adolescent Health (4 credits)

Focuses on health and illness concerns experienced by infants, children, and adolescents. Studies nursing care management approaches and health care resources supportive of promotion, attainment, and preservation of health and amelioration of suffering. Includes nutritional and pharmacological dimensions of nursing practice. Prerequisites: NRSG 3012, NRSG 3008, NRSG 3201, NRSG 4001.

NRSG 3203 Practicum: The Family (4 credits)

The nursing process, including family assessment, serves as the framework for providing a holistic approach in the nursing care of childbearing families, children, adolescents, and adults. Nursing practice roles and abilities relate to promotion, attainment, and preservation of health and amelioration of suffering. Learning experiences include laboratory and a variety of rural health care environments. Prerequisite: 4-year track enrollee; Corequisites: NRSG 3201 and NRSG 3202.

NRSG 3240 Information Management and Collaborative Communication (3 credits)

Introduces the concepts of delivering high quality health care focused on inter-professional communication, and the use of information management and patient care technology. Prerequisites: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100.

NRSG 3300 Health Care Policy, Finance, and Regulatory Environments (3 credits)

Provides an overview of the health care system in the United States. Examines and analyzes current health care policies at a federal, state, and facility level. Prerequisites: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100.

NRSG 3400 American Indian Health Issues & Nursing (3 credits)

Students will examine and analyze the health care issues that American Indians face in current times. Explore how the professional nurse may remedy the profound health disparities of American Indians. Prerequisites: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite(s)/Co-requisite: NRSG 3100 in RN-BS track or completion of NRSG 2000 level courses in 4-yr track.

NRSG 3410 APA Format, Nursing (2 credits)

This course describes the American Psychological Association (APA) (7th ed.) style and Publication guidelines and provides opportunities for application of these guidelines. Topics of focus will include manuscript structure and content, mechanics of style, crediting sources, and reference examples. Correct application of APA Style will be evaluated with quizzes and a final paper/reference page. Prerequisites: Declared nursing major.

NRSG 3430 Health Promotion (2 credits)

The course applies the concepts of health promotion to nursing practice to enable the client to manage and improve health outcomes. While focusing on the methodology critical to developing a holistic plan of care for clients, students will learn the rationale and techniques for utilizing specific assessment tools, analysis of assessment data, selection of lifespan appropriate interventions, implementation of interventions, and measurement of resulting outcomes. Prerequisite(s): Admitted to the major.

NRSG 3440 Palliative Care Nursing (3 credits)

This course examines nursing care needs common to individuals and families receiving palliative and end-of-life care. Emphasizes nursing practice representing a holistic, interdisciplinary, client-centered approach aimed to ameliorate suffering and support serious illness, dying, and a peaceful death. Addresses symptom-control and quality of life issues for patients with life-threatening illness who are not yet experiencing end-of-life issues. Health care resources and issues related to the provision of palliative care are addressed. Prerequisite(s): Admitted to the major.

NRSG 3450 Holistic Nursing (2 credits)

This course introduces the concepts of Holistic Nursing and The American Nurses Association: Scope and Standards of practice for Holistic Nursing. This course will focus on the topics necessary to be ready to apply to take the Holistic Nurse Certificate Examination. Prerequisite(s): Admitted to the major.

NRSG 3460 Child Abuse and Nursing Forensics (3 credits)

This course is intended to provide an overview of child abuse. A basic introduction of child sexual abuse and child physical abuse will be examined. The course will examine the history, etiology, assessment, and consequences of child abuse. Mandated reporting and the role of the nurse and the forensic nurse clinician in relation to child abuse will be discussed. Prerequisite(s): Admitted to the major

NRSG 3920 Directed Group Study (1-4 credits)

Provides an in-depth study of a selected topic. Course title, credit, and prerequisites vary by course offering. Selected courses open to general university students. Prerequisite: 4-year track or RN enrollee.

NRSG 3970 Internship (3 credits)

Graded Satisfactory/Unsatisfactory only. Student internships may be either full-time or part-time in a public or private agency appropriate to the degree objective. Internships consist of closely supervised periods of service that are arranged in advance of the course registration. Students should consult their advisor concerning prerequisites.

NRSG 4001 Mental Health Nursing (4 credits)

Focuses on the psychodynamics of human behavior in relation to the mental health/mental illness spectrum and common lifespan concerns. In addition to assessment, nursing care management includes interventions such as psychopharmacologic approaches and therapeutic communication. Examines nursing and health care delivery resources that address mental health needs, especially those of people living in rural areas. Prerequisites: 4-year track enrollee and all 3000-level NRSG courses required for 4-year track.

NRSG 4002 Palliative Care Nursing (2 credits)

Examines nursing care needs common to individuals and families receiving palliative and end-of-life care. Emphasizes nursing practice representing a holistic, interdisciplinary, client-centered approach aimed at ameliorating suffering and supporting a peaceful death. Health care resources and issues related to the provision of palliative care are addressed. Prerequisites: 4-year track enrollee and all 3000-level NRSG courses required for 4-year track.

NRSG 4003 Rural Populations Practicum (5 credits)

Provides opportunity to use the nursing process with a community/population as the client. Nursing practice roles and abilities relate to health promotion, attainment, and preservation of optimal health of clients, including clients with mental health needs, in diverse rural community settings. Prerequisite: Pre-licensure track enrollee, NRSG 3012, NRSG 3007, NRSG 3201, NRSG 4001.

NRSG 4010 Nursing Care with Complex Needs (2 credits)

Focuses on complex physiological health and illness concerns experienced across the lifespan. Emphasis will be on implementing evidence-based nursing care that reflects an understanding of human growth and development, pathophysiology, pharmacology, medical management, and nursing management. Prerequisite(s): Pre-licensure track enrollee, NRSG 3202, NRSG 4110, NRSG 4003.

NRSG 4100 Nursing Research (3 credits)

Considers the role and use of nursing research in nursing practice. An introduction to the research process is provided and interpreted for its utilization in nursing practice. Prerequisites: Admitted to major.

NRSG 4110 Community Health Nursing (3 credits)

Emphasizes use of the nursing process as the framework for addressing the community/population as client. Nursing role abilities inherent in the conduct of community/population-focused practice. Contemporary community topics, health concerns related to selected populations, and nursing/health care delivery in diverse community (including rural) contexts. Prerequisite: 4-year track or RN enrollee and all 3000-level NRSG courses required for 4-year track or RN program except NRSG 3920.

NRSG 4116 Family and Population Health Nursing (4 credits)

Emphasizes the use of the nursing process as the framework for addressing the family/community/population as client. Nursing role abilities inherent in the conduct of family/community/population-focused practice. Prerequisites: Current unencumbered RN license; Prerequisite/Co-requisite: NRSG 3100; Co-requisite NRSG 4120.

NRSG 4120 Family and Population Health Practicum (4 credits)

Provides opportunity to use the nursing process with the community and family as client. Focuses on client populations in diverse community settings and participation in professional nursing practice roles. Prerequisites: Current unencumbered RN license; Prerequisite/Co-requisite: NRSG 3100; Co-requisite: NRSG 4116.

NRSG 4201 Role Integration Practicum (4 credits)

A comprehensive practicum supportive to the continued development of role expectations of the baccalaureate graduate. Emphasizes providing, designing, managing, and coordinating nursing care within a selected rural setting. Prerequisites: Pre-licensure track enrollee, NRSG 3202, NRSG 4110, NRSG 4003; Co-requisites: NRSG 4010, NRSG 4100, NRSG 4250.

NRSG 4210 Nursing Leadership and Management RN-BS (3 credits)

A study of leadership/management theories, concepts, and strategies as applied to professional nursing roles and practice. Topics relate to nursing care delivery patterns, leadership/management processes, issues, and resources. Prerequisite: Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100.

NRSG 4250 Leadership in Nursing (3 credits)

A study of leadership/management theories, concepts, and strategies as applied to professional nursing roles and practice. Topics relate to nursing care delivery patterns, leadership/management processes, issues, and resources. The contemporary social context of nursing (including rural settings), social action, and the responsibilities of membership in the profession are addressed. Prerequisite(s): Pre-licensure track enrollee, NRSG 3202, NRSG 4110, NRSG 4003.

NRSG 4260 Evidence, Practice, and Research (4 credits)

This course considers the nursing role in the use of nursing research and evidence-based practice. An introduction to the research process and evidence-based practice is provided and interpreted for its utilization in nursing practice. Prerequisite(s): Current RN license and admitted to major or must have an associate degree or diploma degree as a registered nurse or be a licensed RN by the end of the first semester. Prerequisite/Co-requisite: NRSG 3100.

NRSG 4917 DIS Tchg Assoc | (1-2 credits)
